# Novel trends in rheology IV

Zlín, Czech Republic / July 27-28, 2011

Tomas Bata University in Zlín, Mostní 5 | 39, 76001 Zlín, Czech Republic

This international conference is focused on recent developments in experimental/theoretical rheology, non-Newtonian fluid mechanics and applied rheology for advanced polymer processing

organized by

**TOMAS BATA UNIVERSITY IN ZLÍN**  
FACULTY OF TECHNOLOGY, POLYMER CENTRE

in cooperation with

**SOCIETY OF PLASTICS ENGINEERS**

and

**CZECH GROUP OF RHEOLOGY**

All conference lectures will be given by the invited and carefully selected speakers in order to guarantee a very high level of presentations and scientific papers.  
The poster submission is opened for all participants.

The conference book will be published under the American Institute of Physics having ISSN and ISBN.

The papers from the previous Novel trends in rheology III conference book (2009) have been abstracted on the Web of Science/Conference Proceedings Citation Index by Thomson Reuters.
